- Your Loyalty Dollar is equal to \$1 worth of treatments, which are saved and can be used towards purchasing any full priced treatment of your choice between January and November.
- Receive VIP specials and offers

*See website for details and full terms and conditions.*

---

## REFERRAL REWARDS PROGRAM

We value your referrals. It is the biggest compliment you can pay us. When you refer someone to us, please ask them to mention that you referred them to us and we will send you a \$40 voucher to thank you.

---

## BOOKING POLICY

No-shows and last minute cancellations enormously disadvantage our business. They also mean that other clients cannot book those time slots with us. We employ the very best therapists and we invest a great deal in further educating them. When you make a booking, we reserve a therapist just for you. Therefore we hope that you will appreciate our booking policy. A \$30 deposit is required for bookings up to an hour with a further \$30 for each full hour thereafter.

---

## CANCELLATION POLICY

We understand that sometimes you may need to change your booking. We kindly request 24 hours' notice so that we can offer that timeslot to another client. Your deposit will be held for your next booking, or refunded. However, if you don't provide us with 24 hours' notice or you fail to turn up for your appointment (you may send a friend or family member in your place), your booking deposit will be forfeited. We cannot accept messages left on public holidays as sufficient notice, as we will not have enough time to try and rebook your slot.

---

## SKIN ASSESSMENT

Facial Imaging – Initial consultation (allow 45 mins) *Complimentary	\$75
Facial Imaging – Reassessment	\$40
Facial Imaging – Annual Reassessment for VIP members	Complimentary

***This is the first step.*** Facial Imaging enables us to prescribe the correct treatment for your skin type and condition. It is a revolutionary new system designed to observe and measure skin characteristics. It takes pictures of the face and captures intricate details of the skin's pores, wrinkles, pigmentation, sebum, porphyrin, colour and tone – details that are not always visible to the naked eye.

There are amazing treatments available today, but you could be wasting your time and money if you are not doing the correct treatments to address your concerns or have problems down the line if you are contraindicated to some treatments and products!

Receive a FREE\* Facial Imaging and skin analysis with your first appointment. Remind us at the time of making your first skin treatment appointment so that we can allocate enough time.

\*The cost of Facial Imaging is \$75 when not combining with a facial treatment. This amount is redeemable on your first facial treatment, making it a free service for those who are serious about looking after their skin.

## 12 WEEK CUSTOMISED SKIN PROGRAM

\$2150

***This is the most effective way to get your skin looking it's best!***

Speak to your technician about our 12 Week Customised Skin Program. This program gives your technician the flexibility to use a variety of suitable treatment modalities without being limited by cost. She is therefore able to customise your treatment according to the skins needs at the time of treatment and you will know exactly what it will cost you in advance. The program consists of 12 treatments performed weekly. Treatments can include: IPL, Enzyme Therapy, Transdermal Treatments, selected Peels, Alkaline Therapy & Healite Phototherapy. Treatment time allocated will be a maximum of 90 minutes.

**Payment Plan:** \$500 payable on first treatment followed by 11 weekly payments of \$150

*Terms and conditions apply.*

## SKIN TREATMENTS

### Healite II Phototherapy – LED:

Low-Level light therapy (LLLT) with Healite II is the therapeutic use of LED light which!

- Improves healing
- Promotes skin rejuvenation
- Subsides active acne
- Relieves muscle & joint pain

This treatment delivers concentrated energy deep into your tissues, effecting your skin and body at a cellular level. Can be used as a stand-alone treatment or as an adjunctive enhancement of other treatments.

Single Healite Treatment	\$80
Add Healite onto an stand-alone treatment	Add \$40
Add Healite onto an add-on treatment	Add \$60
Course of 10 Healite Treatments	\$600 Payment Plan: \$195 on your first treatment followed by \$45 per treatment thereafter)

### Hydra-Phototherapy Facial (includes foot massage)

\$195

Exfoliate, Hydrate & Rejuvenate. Includes:

- Lactic Acid Treatment to gently exfoliate and deeply hydrate
- Healite Phototherapy to revive and rejuvenate
- Treatment Mask to nourish and further hydrate
- Foot Massage for pure relaxation

*Good for all skins except very weak, sensitised or hot and inflamed skin.*

### Transdermal Treatments:

<b>Individually Customised Treatment (allow 50 mins)</b> A treatment tailored to your specific skin condition. This treatment includes a method of exfoliation, treatment mask and transdermal skin nutrition infusion. This treatment is suitable for all skins.	\$125
<b>Transdermal Express Treatment: (allow 30 mins)</b> This customised treatment includes an exfoliation and transdermal nutrition.	\$80
<b>Transdermal Eye Treatment: (allow 30 mins)</b> A real eye opener. Whether you suffer from wrinkles, fine lines, puffiness and dark circles or simply dull lifeless skin around the eyes, the DMK Eye Fusion Treatment will revitalise the appearance.	\$80

### **Enzyme Therapy (includes foot massage):**

DMK Enzyme therapy utilises the beneficial effects of transfer messenger enzymes. Enzymes are living substances that regulate health and work with certain minerals in the body to form a natural system of antioxidants that fight corrosive free radicals. Properly formulated, they can remove dead proteins, toxins, and other effluvia from the epidermis using a process called 'reverse osmosis'. Skin Corrective Enzyme Treatments work with the skin. The enzymes aim to strengthen the structural integrity of the skin to create a healthy environment for cells to live and thrive in. Enzyme Therapy exercise facial muscles and works to leave the skin feeling firm.

<b>Enzyme Therapy Facial (allow 1hr 15mins)</b>	<b>From \$150</b>
<b>Skin Correctives signature Enzyme Therapy with customised Pre-Exfoliation (Allow 1hr 30 – 1hr 45mins)</b>	<b>From \$210</b>
<b>Muscle Banding Enzyme – Age management.</b> Muscle Banding is about acting in advance to prevent the onset of ageing. The Skin Correctives Muscle Banding Program not only lifts and firms the skin; it can also help to restore optimal skin functioning which is the key to healthy, firm skin. Fight against the decline that causes ageing	<b>\$190</b>
<b>Muscle Banding Enzyme with customised Pre-Exfoliation</b>	<b>From \$245</b>
<b>Instant Lift Enzyme with Pre-Exfoliation – Enzyme 1 with Muscle Banding Enzyme 2 &amp; 3.</b> Instant 'pick me up' for the skin. Firm, tighten and brighten your skin instantly with the DMK special occasion treatment. The perfect accessory for a wedding or party.	<b>From \$300</b>
<b>Skin Correctives Pre and Post Operative Treatments</b>	<b>POA</b>

### **Pre-Exfoliation & Pre-treatments:**

These treatments are incorporated with our Enzyme Therapies to take your skin results to the next level.

<b>Desquamate (allow an additional 15 minutes)</b> A gentle amino acid exfoliant that loosens and desquamates rough surface cells.	<b>\$50</b>
<b>Quickpeel/flush (allow an additional 15 minutes)</b> The cassia from Chinese cinnamon nut causes a pseudo heat, designed to stimulate surface vascular activity purging and oxygenating the skin leaving it energised and smoother. This treatment is also beneficial for addressing pimples and breakouts, it is good for sensitive skin and helps to strengthen fragile capillaries.	<b>\$70</b>
<b>Pro-Alpha Occlusion (allow an addition 15 minutes)</b> Aims to raise internal skin hydration with gentle exfoliation to smooth fine lines and wrinkles while improving firmness and elasticity of the skin.	<b>\$70</b>
<b>Prozyme (allow an additional 15 minutes)</b> The dead cell 'muncher'. This enzyme exfoliator works like a dead skin cell muncher designed to remove congested areas of the skin. The action of these enzymes removes cellular debris and build up, leaving the skin softer, clearer and more responsive.	<b>\$80</b>

---

## ADVANCED SKIN REVISION

### **Alkaline and Enzyme Therapy – Light Resurfacing** **from \$210**

Alkaline wash swells, softens and dissolves to remove excess cell build-up, effective skin resurfacing for pigmentation, scarring and it releases the inflammation and impaction and kills Acne bacteria. Alkaline wash is also very effective in cleaning out the impacted hair shafts and dissolving the hair at the same time.

### **Hydradermaze** **\$210**

Clear the way for acne free skin. Hydradermaze is an advanced treatment program designed to help clear acne and congestion. Performed fortnightly for 12 weeks, Hydradermaze addresses the causal factors involved in the pathophysiology of acne. DMK achieve long term results ensuring the condition won't just return.

### **Bihaku** **from \$230**

For luminous complexion. The effects of ageing, stress and the environment influence skin to develop uneven texture. It becomes coarser, pigmented and imperfections appear. The DMK Bihaku Skin Brightening Treatment is a professional program designed to help regain a brighter, more even and luminous complexion.

### **A-Lift® (Aesthetic Lift) Program** **\$2800**

Skin fitness program. Skin correctives A-Lift® is a 12 week program designed to revise the signs of ageing and the health of your skin. By removing redundant skin cells and tightening facial muscles, the A-Lift® Treatment works by stimulating the underlying structures of the skin. It gives the face its own workout, similar to how you would tighten and tone the body with exercise. The muscle banding technique is used in the A-Lift® to tighten and tone the skin, restoring healthy and youthful appearance. It works to reduce redness and unsightly capillaries and provide a vibrant appearance. Performed weekly over a 12 week period, the A-Lift® uses transdermally delivered formulations that work with the skins functions to remind it to function as it did when it was young.

### **Follicuzyme®** **POA**

A professional treatment which helps eliminate ingrown hairs, a very quick and effective in-salon treatment which aims to revise red bumps and ingrown hairs. Follicuzyme® helps to dissolve the hair and accumulation of dead cell material on any part of the body, releasing the follicle while addressing redness and inflammation leaving the skin smooth and supple.

---

## PEELS

Peels offer skin remodelling and rejuvenation for all kinds of skin conditions and problems, on any area of the face and body. These remodelling treatments will improve and enhance the skins clarity, tone and texture and leave your skin with healthy skin that looks and acts younger. A course of 4 – 6 peels delivers the best results.

<b>DMK Lunchtime Peel</b> A controlled micro-removal of the epidermis – leaving the skin looking instantly radiant and luminous. It is also a great option to minimise fine-lines and wrinkles, minimise open pores and brighten the skin. This process also encourages new cells to grow stronger and healthier – so it is the perfect DMK Protocol to launch leading into winter. But the best part is that this peel addresses the symptom of the condition without any visible downtime or post treatment irritations	<b>\$160</b>
--	--------------

<b>LACM Peel</b> Lactic Acid treatment to gently exfoliate and hydrate. Antibacterial properties, so also great for congested, breakout prone and acne skins and promotes cell renewal.	\$140
<b>Salicylic Acid Peel</b> Designed to breakdown oil and surface debris in acneic skins to control inflammation, bacteria, production of oil and to slow down skin cell turnover. This provides a fantastic treatment for acne.	\$140
<b>Jessner Peel</b> Helps to reduce pigmentation and improve the appearance of acne scars.	\$225
<b>Pyruvic Acid</b> Effectively reduces pore size and helps control the skins oil production.	\$145
<b>Mandelic Peel</b> Ideal for sensitive skin types. The inclusion of an anti-inflammatory (MSM) helps manage rosacea symptoms effectively.	\$135
<b>Glycolic Acid</b> Improves the effects of mild sun damage and fine lines.	\$135
<b>Hand Peel</b> The combined TCA and lactic acid peel which also delivers kojic acid into the skin to reduce sun and age spots at the same time as rejuvenating the skins appearance.	\$110
<b>Hand Peel combined with a facial</b>	\$75
<b>Neck and Chest Peel</b> Delivers pyruvic acid and lactic acid into the skin and provides raw ingredients for Hyaluronic acid synthesis to tighten and plump the skin.	\$175
<b>Eye and Lip Peel</b> Treat the sensitive areas around the eyes and lips. The whole eye area including the lid can be treated, tightening loose skin and reducing the appearance of "crows feet". The mouth area gets right to the vermillion border, minimising the appearance of fine lines on the upper lip and marionette lines at the corners of the mouth.	\$190
<b>Back and Chest Peel</b> Reduces the symptoms of oily, blemish prone skin on the back and chest by reducing the build up of dead skin cells, decreasing sebum and bacterial colonisation.	\$225

---

## ADVANCED PEELS

### Pro Alpha Six Layer Peel

face from \$695

A resurfacing procedure for those wanting dramatic results. Pro Alpha Six-Layer Peel is an integrative aesthetic approach to skin restoration. Not everyone wants to commit to cosmetic surgery when signs of ageing become apparent. Many patients prefer to start with a less invasive procedure such as the Pro Alpha Six-Layer Peel. This professionally applied treatment revises the old damaged skin and works to re-establish structural integrity. Pro Alpha Six-Layer Peel is like a skin renovation. The Pro Alpha Six-Layer Peel an exclusive blend of AHA's and BHA's applied systematically in layers. The strength of the formulation is tailored by your therapist to suit your skin colour, texture, sensitivity and condition.

## RP (remodelling procedure)

face from \$745

Reconstruct healthy skin. RP is based on the preservation of healthy and attractive skin on both the body and face. RP revises skin by looking at the underlying cause of premature ageing making it ideal for conditions such as sun-damaged skin. RP aims to revise the processes that have developed as a result of the sun or environment damage. RP is an industry proven way of dealing with sun-damage, premature ageing, loose sagging and wrinkled skin. RP can be performed on the face, neck, chest, hands and any part of the body.

---

## SKIN LESIONS REMOVAL

The SkinClear is a cutting edge tool used to safely and effectively remove blemishes, lesions, growths, and skin irregularities within seconds. Using a combination of radio and high frequency currents, this non-invasive treatment treats milia, skin tags, cholesterol deposits, thread veins, spider veins, cherry angiomas, and benign moles. The technique does not harm the surrounding tissue and is tolerable. There is minimal discomfort with healing time ranging from 2 to 4 days for skin tags to a couple of weeks for larger lesions and thread veins with prescribed aftercare.

10 mins (minimum)	\$85	30 min	\$200
20 min	\$150	Needle change	\$5

---

## SKIN NEEDLING

### RejuvaStamp™ Electro Collagen Induction Therapy:

The (ECIT) Device works by inserting tiny micro needles into the skin creating thousands of perforations. The microscopic perforations stimulate the body's own natural electrical response (similar to acupuncture). These natural electro signals induce your body's natural human growth factor (PDGF), to transform into growth factor (TGF beta). This will increase blood circulation to the penetrated area and stimulate collagen and elastin production. The new collagen and elastin matrix can continue rejuvenation for up to 12 months. The result: Rejuvenating Collagen III back to Collagen I. the skin will be nourished, oxygenated and restructured from the inside out – without destroying the epidermis. The procedure is non-invasive and designed to firm the skin and help lessen the appearance of wrinkles, stretch marks, acne scars and pigmentation to name a few. Rejuvastamp is the most intense needling device currently on the market.

Scar treatment	POA	Neck	\$325
Half Face	\$325	Décolleté	\$350
Full Face	\$450	Full Face and Neck	\$625
Eye Area	\$250	Neck and Décolleté	\$550

### Deep Needling

From \$75

Treatment for pitted and boxed scars. Ideal for acne or chickenpox scars. Often used in combination with Rejuvastamp for best results.

---

## VPL - VARIABLE PULSED LIGHT THERAPY

*(IPL Technology – only available at our Shellharbour clinic)\**

Sun damage and the effects of ageing can leave your skin looking tired and prematurely aged, resulting in skin imperfections on your face and body. VPL uses light energy to target the different structures within the skin to reduce imperfections and improve skin texture and tone.

### Initial consultation (incl. patch test)

\$50

*Price taken off the cost of first treatment*

Spot treatment	\$50	Neck, Chest	\$300
Face	\$220	Face, Neck, Chest	\$500
Décolleté	\$185	Hands	\$85
Face and Neck	\$350	Acne - Face	\$120

## MEDICAL AESTHETICS\*

*(Only available at our Wollongong clinic)*

Our Cosmetic Physician, **Dr Peter Muzikants**, has been specialising in the area of aesthetic medicine since 1987. He is certified by ECAMS, European College of Aesthetic Medicine & Surgery, for completing the master course in non-surgical facial transformation at Cork University, Ireland. He is also frequently asked to attend seminars to demonstrate his techniques in use of dermal skin fillers and botulinum toxin in aesthetic medicine. He is on the advisory board for injectable dermal fillers and neurotoxin for a couple of pharmaceutical companies.

Finally, Dr Muzikants is a national trainer for doctors in aesthetic use of dermal fillers and botulinum toxin. He has his own practice in Glebe since 1998. We are very privileged to have him perform medical injectables and sclerotherapy at Skin Correctives

### Medical Injectables (Botox & Fillers):

**POA**

### Leg Vein Treatment:

**POA**

Prominent superficial leg veins may develop after pregnancy, in standing vocations such as hair dressing, teachers, shop assistants or it may be hereditary. Sclerotherapy, often called microsclerotherapy, is a non-invasive procedure where a very fine needle is used to inject a solution into the small vein. The solution will injure the vein wall causing the vein to close down and be reabsorbed. This treatment is safe and delivers excellent results.

## HAIR REMOVAL

### Energist™ VPL – Permanent Hair Reduction:\*

**POA**

The Energist VPL treatment has been clinically proven to reduce hair from all areas of the face and body. The variable settings mean that it can effectively treat the different types of hair found all over the body, from thicker bikini hair to finer facial hair. Hair reduction with Energist VPL™ is safe, easy and effective. It uses short controlled pulses of filtered light which are absorbed by the melanin, the pigment found in the hair. This absorption produces heat, which travels down the hair affecting the follicles ability to regenerate. Hundreds of hair follicles are treated with each pulse, making Energist VPL™ a fast and effective way to treat unwanted hair.

### Initial Consultation (incl. patch test)

**\$50**

(Price taken off the cost of the first treatment)

### Electrolysis – Blend Method:

Electrolysis is still the only scientifically proven method for permanent hair “removal”. All other methods are classed as permanent hair “reduction” only.

10 minute treatment	\$40	Per minute after 10 minim.	\$2.50
---------------------	------	----------------------------	--------

### Alkaline Hair Removal:

The Alkaline Wash system is a remarkable treatment designed to reduce fine, downy hair on the face and other parts of the body. This type of hair is usually dense and difficult to remove using electrolysis, laser or IPL removal.
